

Neutral

Neutral Detergent

ID 4754

Description

Neutral is specially formulated for use in washer disinfectors. Compatible with a variety of substrates, stainless, aluminum, and plastics. Extremely free rinsing. Strong chelating additives helps protect instruments by preventing scale buildup, allowing hard water minerals to be completely rinsed away. For heavily soiled instruments use Treat Enzymatic Pretreat for the rapid breakdown of bioburden.

Directions

Neutral can be used in mechanical washing systems by injecting into the wash cycle. Typical usage 1/4 to 1 ounce per gallon of water (2 to 8 mL per liter). Neutral Detergent is not a sterilant. Instruments must be sterilized following treatment with this product.

Technical Data

Form	Liquid	Scent	None
Color	Clear	pH (1% solution)	8-9

HAZARDS & PRECAUTIONS: No GHS phrases apply.

RESPONSE/FIRST AID: Have product container or label with you when calling poison control center or physician. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison control center or physician for treatment advice. **IF SWALLOWED:** Rinse mouth with water. Contact physician for treatment advice if feeling unwell. **IF ON SKIN (or hair):** Rinse skin with soap and plenty of water. Contact physician if irritation occurs.

STORAGE & DISPOSAL: No GHS phrases apply. Dispose of contents/container in accordance with all local, regional, national and international regulations.
